

## RAIN BIRD AUSTRALIA

# Rain Bird Australia Technical Services Certified Start-up for Central Control Products

### Implementation of your Central Control – No Worries

When you buy the world most intelligent irrigation control system, you want assurance it's set up properly right from the start with total support.

Rain Bird, the company that pioneered computer-based central control systems, offers precisely that service when you purchase a new central control product exclusively for Rain Bird control systems. These services are also available when it is time to upgrade your existing system.

### Certified Start-up Features
