page 208

Smart Approved WaterMark™ is Australia's outdoor water-saving labeling program for products and services that help to reduce water use. Product certification by Smart Approved WaterMark is important since certification is achieved by independent assessment by a respected organization in a region that, due to water scarcity, is on the leading edge of adopting water-saving technologies. For more on Smart Approved WaterMark, please visit www.rainbird.com/SAWM

Look for the Smart Approved WaterMark label on these Rain Bird products:

- 1800 Series PRS Spray Head - page 9
- 5000 Plus Series PRS Rotor - page 49
- RSD Rain Sensor - page 132
- Rotary Nozzle - page 20
- PRS-Dial - page 106
- Maxicom²® Central Control System - page 146
