

Sprinkler Design Information Sheet

Gather your information on this sheet

- 1 Draw a plan of your property on the graph paper provided.** Show all patios, decks, walkways, sheds, driveways, etc. Identify fences, walls and planters. Indicate areas like lawn, trees, shrubs, flower beds and garden plots. **Please make sure to indicate the following on your drawing:**
- A box to show the location of the water meter or pump (if no meter, use it to indicate location of tie-in to main service line).
 - X An "x" if you have a preferred location for your valve manifolds. I want Rain Bird to specify.
 - A circle inside a building, near an electrical outlet, where you would like your timer(s).

Drawings will only be accepted on Graph Paper provided; Please do not send Blue Prints or Other Plans.

- 2 Complete the entire form.** (Incomplete forms will receive a notification letter and request will be put on hold until the missing information is received).
- **Scale of Drawing (Must be drawn to one of these scales) :** 1" = 10' 1" = 20' 1" = 30'
 - **Flow Test:** _____ Gallons Per Minute. If less than 7 GPM, please re-test water flow (See chart on Pg. 5 for maximum recommended flow).
 - **Type of Sprinkler Pipe Used In Your Area** (consult with your retailer): PVC POLY

If using city or municipal water system, provide the information below:

- **Water Pressure:** 25 - 29 psi 30 - 39 psi 40 - 49 psi 50 - 59 psi 60 - 69 psi 70 - 79 psi 80 + psi
(if less than 40 PSI, call your local Water Company to check if low pressure conditions are normal in your area.)
- **Type and Size of Service Line:** **Type:** PVC/Poly **Size:** 3/4"
 Copper 1"
 Galvanized 1-1/4"
- **Water Meter Size:** 5/8" 3/4" 1" No Meter

WARNING: 40 PSI is the minimum water pressure required to design your irrigation system.

If using a pump system, provide the information below:

- **Type and Size of Pump Delivery Line:** **Type:** PVC/Poly **Size:** 3/4"
 Copper 1"
 Galvanized 1-1/4"
- **Type of water source:** Well Tank Lake Other
- **Capacity of Your Pump at the Following Pressures:** @30psi _____ GPM @40psi _____ GPM @50psi _____ GPM

Indicate the following:

- I want: Impacts Rotors Spray Heads Bubblers Landscape Dripline Rain Bird to Recommend Irrigation Products

- 3 Fax your request to 1-800-862-4927 or send it via mail to:** ----->
- (If faxing, drawing and information sheet **must** be in dark ink with no color or shading)
You will receive a receipt confirmation email within 24 hours (requests no later than 4:00 PM PST)

RAIN BIRD DESIGN SERVICE
2675 Customhouse Court, Suite L
San Diego, CA 92154 USA

- Refund request must be submitted within 60 days from date of purchase.
- All refunds will be credited to original credit card used for design service fee, please provide us with the credit card expiration date. Without this information, we can not process the refund.

Note: The accuracy of your drawing and how well you answer the questions above will determine the accuracy of your custom design. Rain Bird offers this design as a guideline. No guarantee of accuracy of design, system installation or operation of system is implied. Your design is based on using Rain Bird products. Other manufacturer's products may not work on this design due to differences in flow, distance of throw, inlet size or other variables. Price based on shipping within Continental United States. Other locations may be higher. (Prices subject to change.)

Refund offer is limited to one per customer on each eligible design. Submissions that do not meet requirements, or are duplicates, will not be honored. Offer good only in USA and valid one-year from the date when the design was completed. This offer may not be combined with any other offer. Offer void where prohibited, or restricted by law. Proofs of purchase (UPC and copy of receipt) will not be returned. Please allow 8 weeks for processing. Rain Bird is not responsible for lost or misdirected mail.
