

## Rotary Nozzles

**RAIN BIRD®**

*Rain Bird® Rotary Nozzles are an easy solution to meet many of your landscape's diverse watering needs.*

### **Application:**

Rotary Nozzles are designed to fit on any Rain Bird® spray head and gently distribute water from 13 to 24 feet.

### **Outstanding Results:**

- Rotary Nozzles deliver gentle, visually-appealing streams of water at a lower rate allowing the water and nutrients to penetrate the soil, which helps you maintain a healthy landscape.
- Ideal for slopes and hillsides, Rotary Nozzles' highly-efficient water delivery reduces soil erosion and runoff, saving water and money.
- Rotary Nozzles are the perfect solution if you experience low water pressure. They are designed to operate at lower pressure while still delivering precise, even coverage.
