

## Golf Valve Boxes

# A Better Valve Box For Your Course

At Rain Bird, innovation doesn't stop at the rotor. From durable fabrication to intuitive design features, Golf Valve Boxes are built to a standard the competition can't match.

## Strength & Stability

Multiple sizes and shapes are designed with corrugated sides and wide-flange bases for maximum durability, compression strength and stability.

## Flexible Installations

Interlocking stacking capabilities, extension models and pipe hole knock-outs support deeper, more flexible installations.

## Smart Lid Design

Designed with no holes to keep out pests and beveled edges to minimize potential damage from golf equipment, along with easy hand and shovel access.

## Environmentally Friendly

Earth-conscious, LEED-compliant composition made of 100% recycled materials.

## Anatomy of a Better Box

**Bolt Hole Knock-Out** keeps hazardous insects and pests out when bolt is not used.

**Finger or Shovel Access Slot** for easy lid removal.

**Beveled Lid Edges** prevent damage from golf equipment.

**Knock-Out Retainers** hold removed knock-outs in place during backfill.

**Wide Flange** stabilizes the box, eliminating the need for brick and provides enhanced side load strength.

**Knock-Outs** built into all four sides.

**Corrugated Sides** maintain structural integrity under heavy loads.

## Valve Box Lids

A variety of color options are available, including purple lids to provide easy identification of non-potable water supplies.

## Interlocking Bottoms

Patented feature for deep installations. All boxes attach securely together when fitted bottom-to-bottom.
