

Trees for the Future

As a living connection to our past, present, and future, trees are invaluable. Join Rain Bird in our goal to foster these precious resources through The Intelligent Use of Water™ this year. In turn, we'll plant a tree on your behalf.

There are two easy ways to get involved in 2023:

1

Purchase any Essential Tool for Tree Health at distribution and submit your receipt through Rain Bird Rewards, or order through Store.RainBird.com/Tree-Health with the code **PLANTTREE**.

SQ3QTR Square
Pattern Nozzle

Root Watering
System

XFS-CV
Dripline

2

Post about a favorite tree of yours with #TreeStories and #RainBird on Facebook, Instagram, or LinkedIn and share it with TreeStories@RainBird.com. In your video, describe the tree and tell us why it is important to you.

Trees will be planted monthly throughout 2023 and we'll even share our favorite stories online. We can't wait to hear from customers just like you and start planting!

Explore iconic trees across the U.S. with Emmy-nominated host, Elliott Bambrough.
