

DID YOU KNOW?

Effective water-saving irrigation systems designed with smart controllers and drip can be 90% efficient.

Up to 50% of water use is lost due to wind, evaporation and runoff by inefficient irrigation systems.

Precision Watering Tools provide the **RIGHT** amount of water, to the **RIGHT** plant, at the **RIGHT** time.

Rain Bird Check Valves have the highest holdback in the industry, up to 14 feet.

IT PAYS TO BE
PRECISE
CONSERVE WATER • SAVE MONEY
