

LF™ SPRINKLERS

Maximize irrigation efficiency while minimizing maintenance with Rain Bird® LF™ Sprinklers. Built to withstand harsh agricultural conditions, these sprinklers are ideal for orchards, row crops, field crops, and climate control. LF combines the strength of an impact sprinkler with adjustable spray heights for consistent and reliable coverage.

No Tools Required
Snap-Fit Assembly

Even Water Distribution

- Rain Curtain™ Technology delivers excellent Distribution Uniformity with smooth, controlled rotation and large water droplets to fight the wind
- Operates at lower pressure but still throws water far and evenly, which helps reduce energy consumption
- Precision Jet spoon directs water to the field and prevents erosion around the riser

Built to Last in the Harshest Conditions

- Roll cage design molded from heavy-duty acetal protects the sprinkler from damage due to handling and UV exposure
- Fast and consistent rotation at temperatures below 26°F to help ensure even and constant distribution of water to protect plants during frost events
- Industry leading 5-year warranty, backed by quality

Reduce Costs with Simple Maintenance

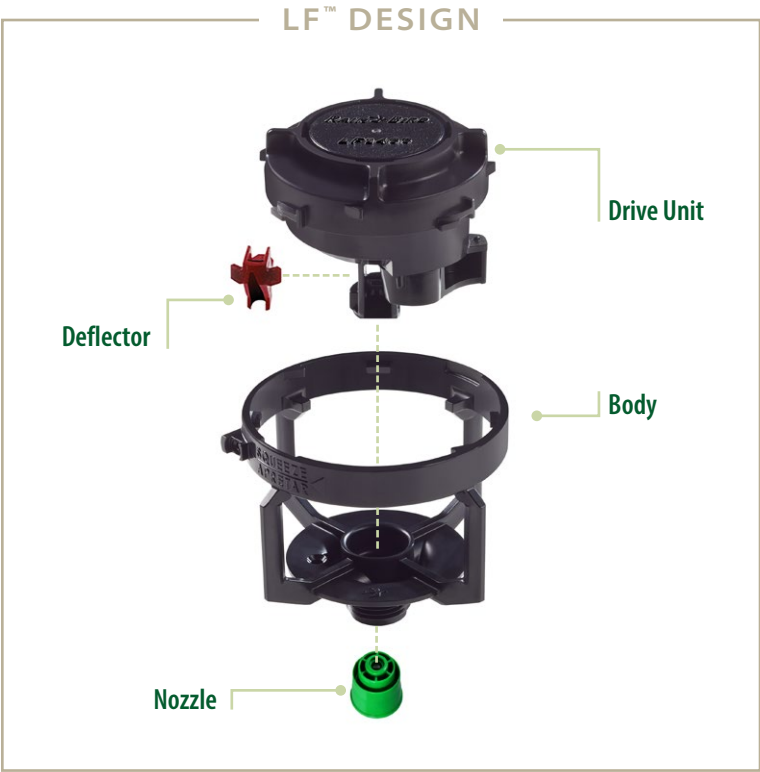

- Save on time and money with snap-fit assembly — no tools required for setup or service
- ACME male thread body requires only a couple simple twists to install or remove — simple and easy
- Simple 4-part design makes cleaning easy and reduces the number of pieces to manage.
