

**High flow.**  
**Easy maintenance.**  
**Fewer parts.**  
**Faster installs.**

**That's intelligent.**

### **1" Medium Commercial Control Zone Kit with PR Basket Filter**

- High Flow – the simplest, smallest and most reliable Control Zone Kit for Commercial applications between 3 and 20 GPM
- Reduced Maintenance – easy to clean stainless steel basket filter
- Increase Reliability – Fewer parts, fewer threaded connections mean less chance of leaking.
- Efficient Design – Combines drip filtration and pressure regulation in a single compact unit that easily fits in a standard valve box, giving you more room to work.

Rain Bird's 1" Medium Commercial Control Zone Kit is built with Rain Bird's PEB valve and pressure regulating basket filter, this control zone kit ensures filtered, even water flow in low-volume irrigation zones. Its superior performance has been tested in harsh reclaimed environments. It operates reliably even in heavily chlorinated water. The valve diaphragm is chlorine and chemical resistant.

### Models

- **XCZ-100-PRB-MC** - 1" Medium Commercial Control Zone Kit with PR Basket Filter

#### PEB Valve:

- Durable glass-filled nylon construction with fabric reinforced rubber diaphragm for long life and reliable performance
- Slow closing prevents water hammer and subsequent system damage
- The diaphragm is reinforced with fabric which adds strength and durability

### How To Specify

**XCZ - 100 - PRB - MC**

Xerigation Control Zone Kit	Size: 100 = 1"	Feature: Pressure Regulating Basket Filter	Feature: Medium Commercial
-----------------------------	----------------	--	----------------------------

#### Pressure Regulation and Filtration all in one:

- Efficient design combines filtration and pressure regulation in one compact unit
- Fewer connection points mean less chance of leaking and less assembly time
- The body is made of durable, glass filled nylon
