

Manual Operations on a mobile telephone

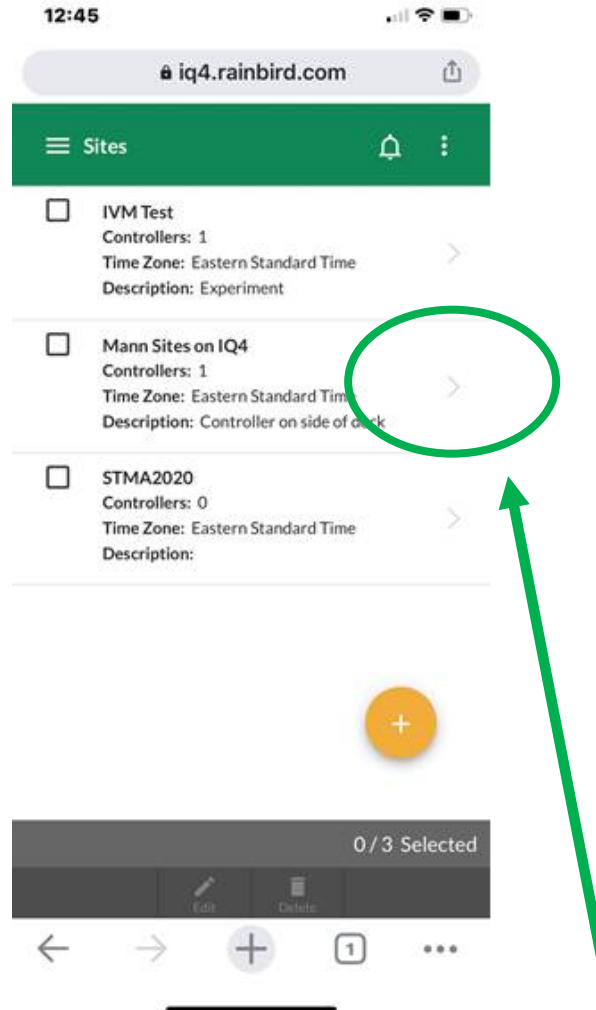

The Intelligent Use of Water.™

Manual Operations

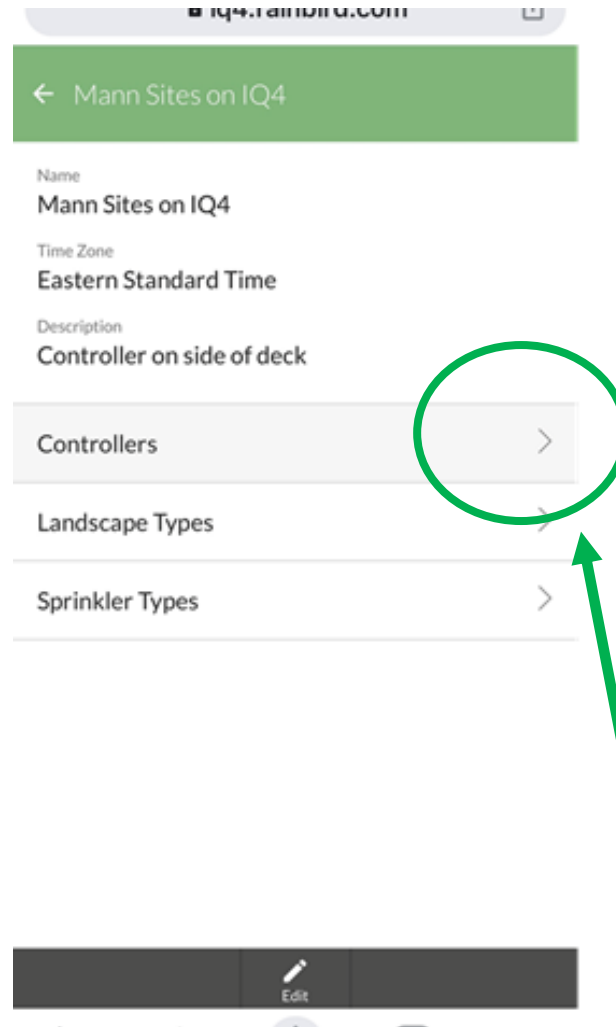

- **Manual Operations are easy in IQ4**
- **Ability to manually start, advance and stop programs and/or stations**
- **If a flow sensor has been installed, real-time flow showing expected flow and actual flow can be displayed**

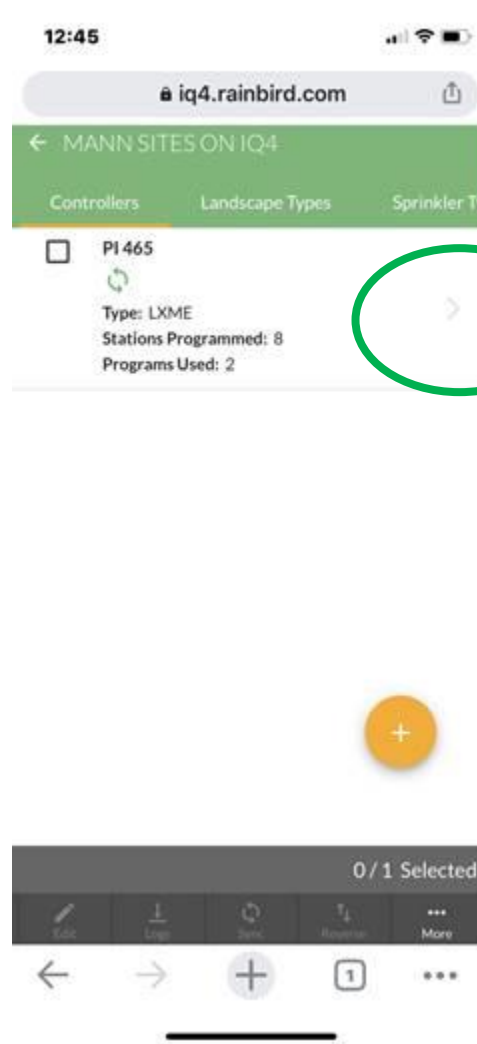

- **With Rain Bird's IQ4, it is easy to start, advance and stop stations and programs manually from your mobile device**

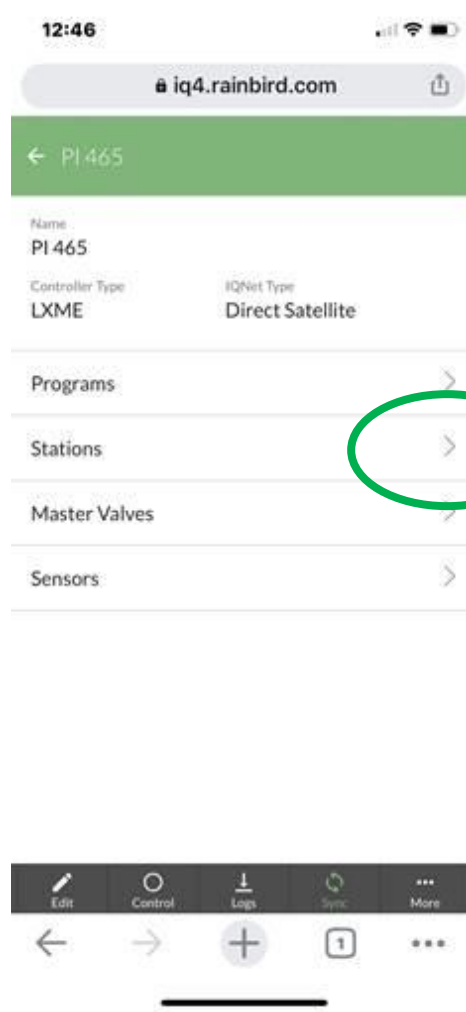

- **STEP #1: Go to the Site Page, click on the right arrow**

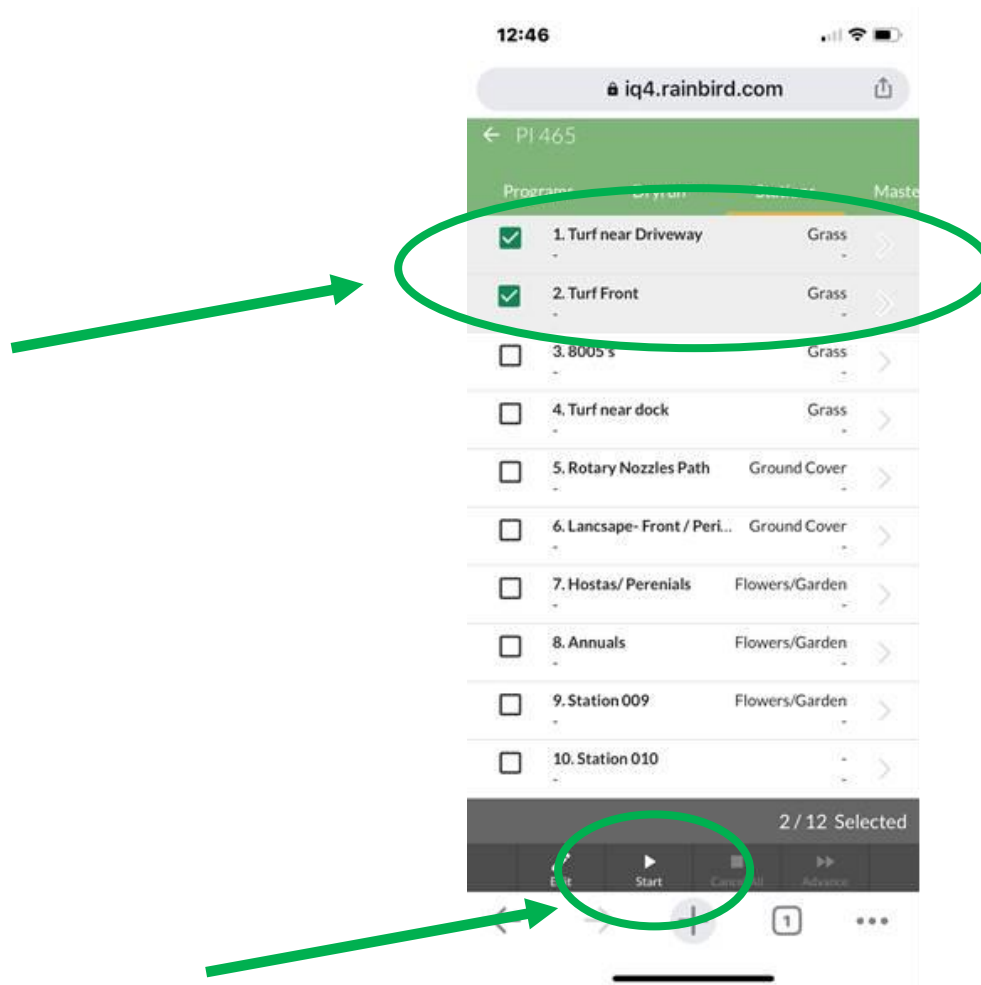

- **STEP #2: Go to the Controller page, click on the right arrow for controllers:**

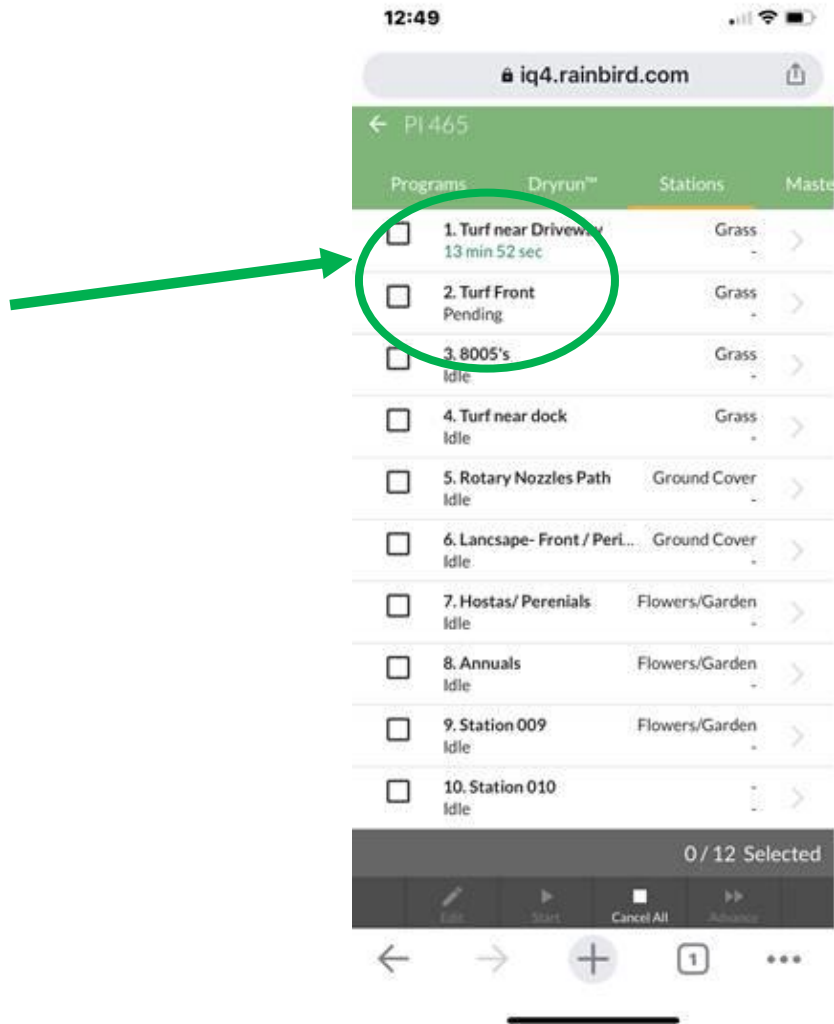

- **STEP #3: Go to the controller you want, click on the right arrow:**

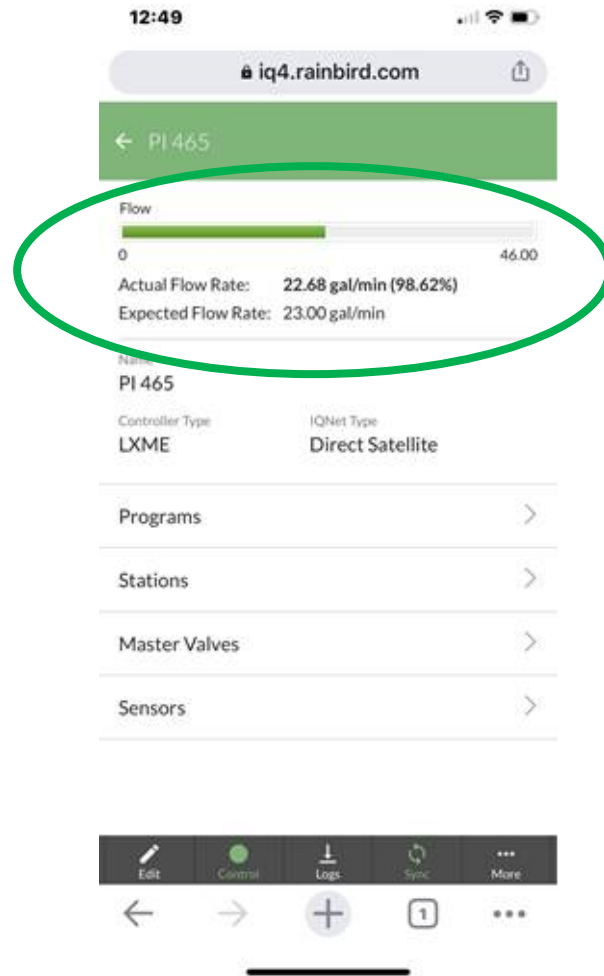

- **STEP #4: Go to Stations, click on the right arrow:**

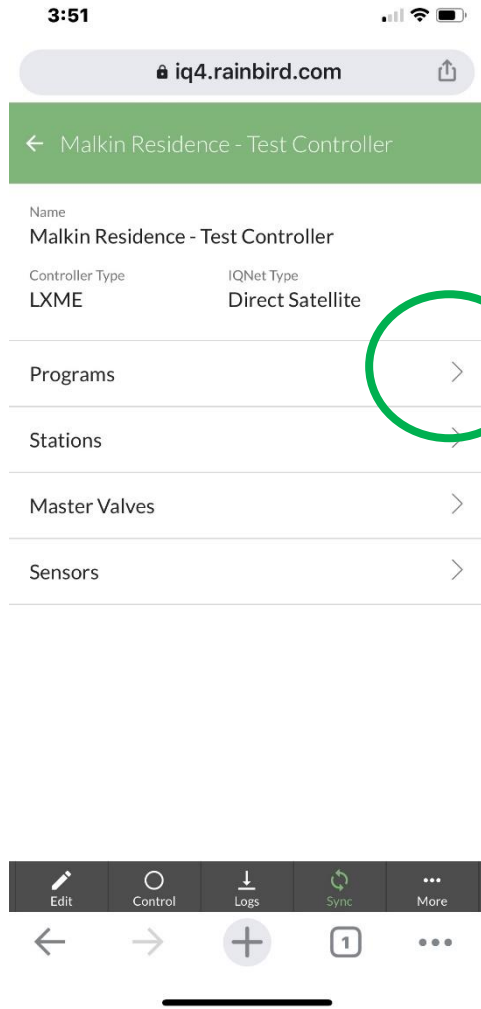

- **STEP #5: Select the stations you want to operate, click on Start at the bottom of the screen:**

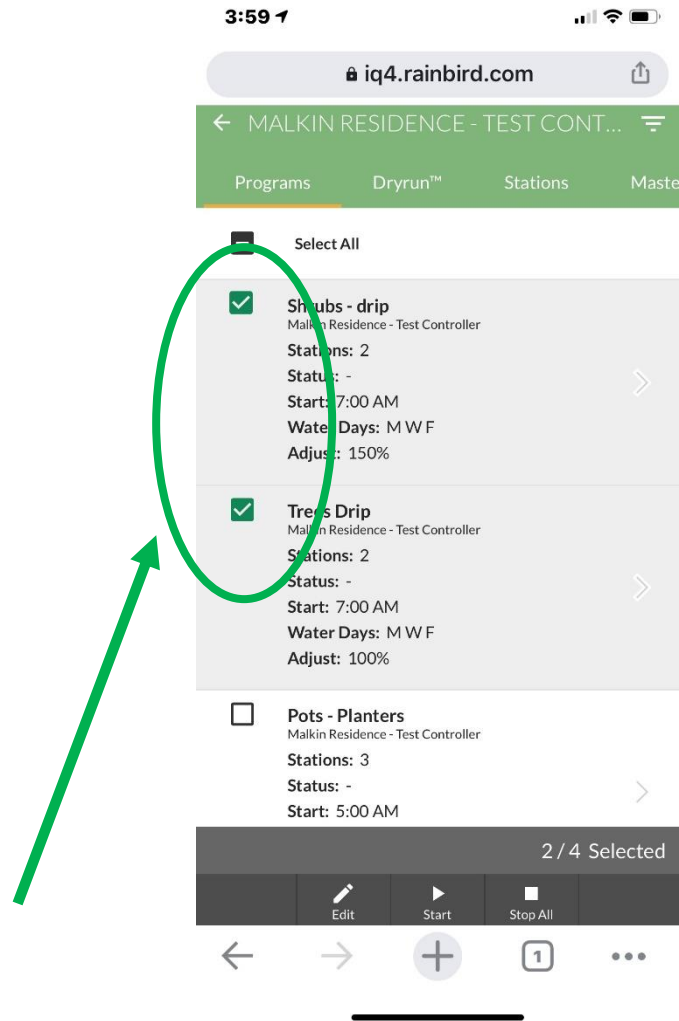

- You should see the following (flow and run/soak times)

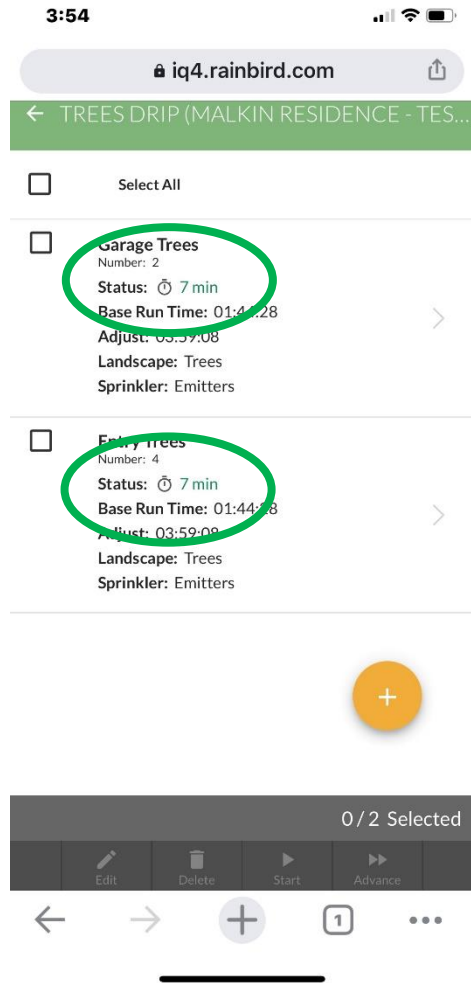

- If you have a flow sensor installed, you can see the expected and actual flow

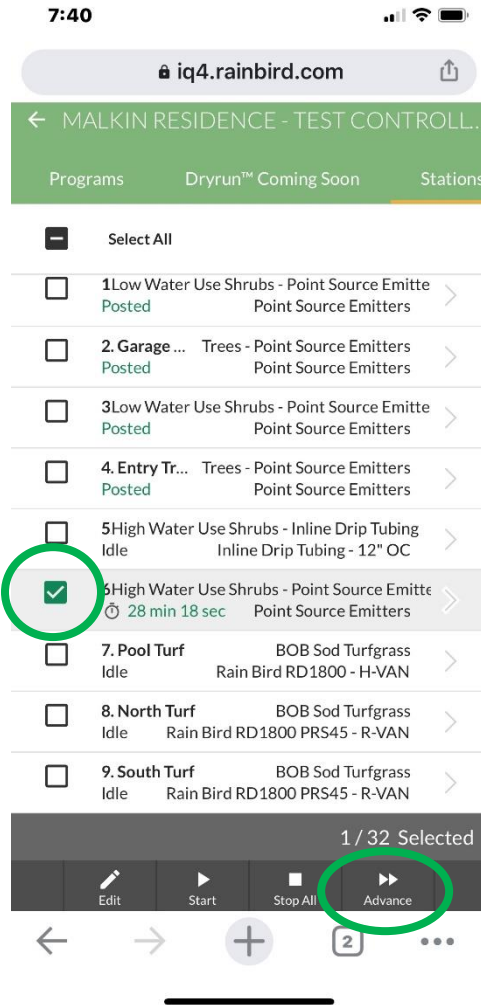

- If you wish to start a Program, STEPS 1 – 3. **STEP #4: Select Programs**

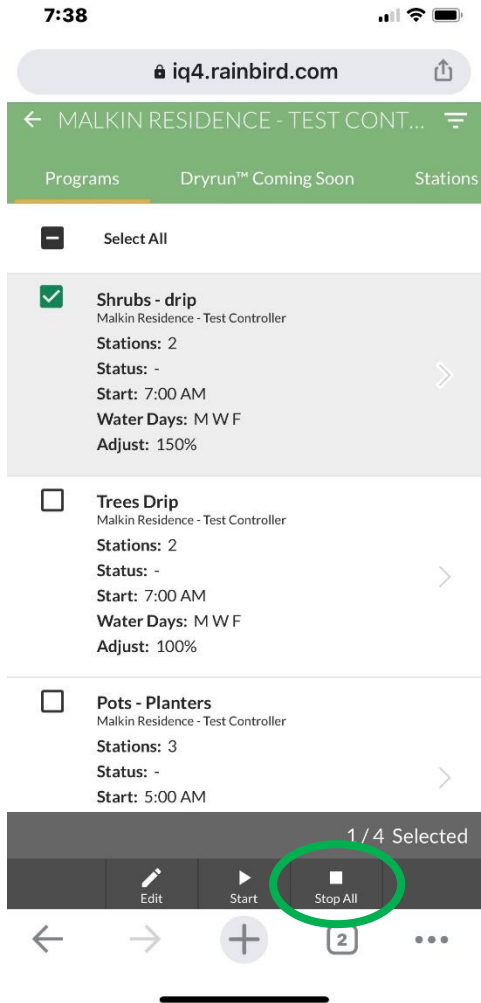

- **STEP #5: Select the Program(s) you wish to start**

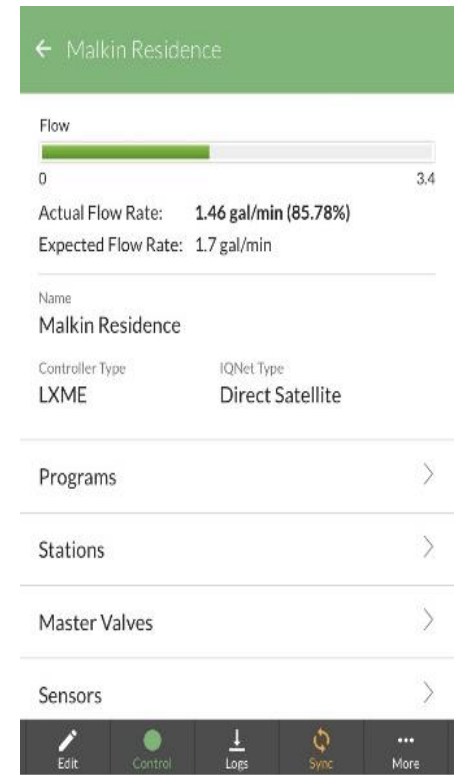

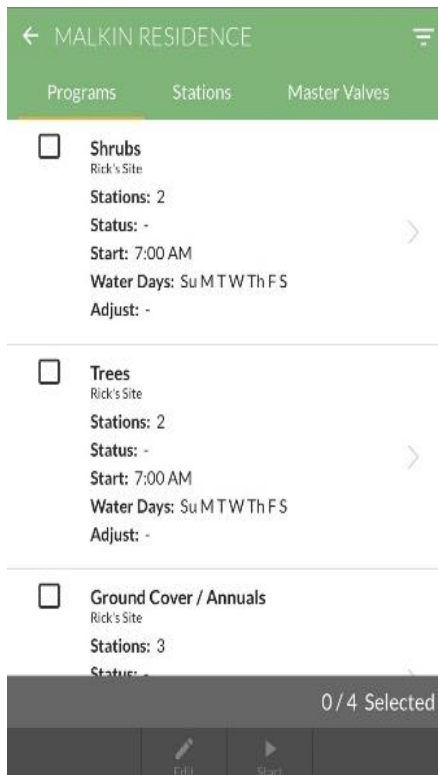

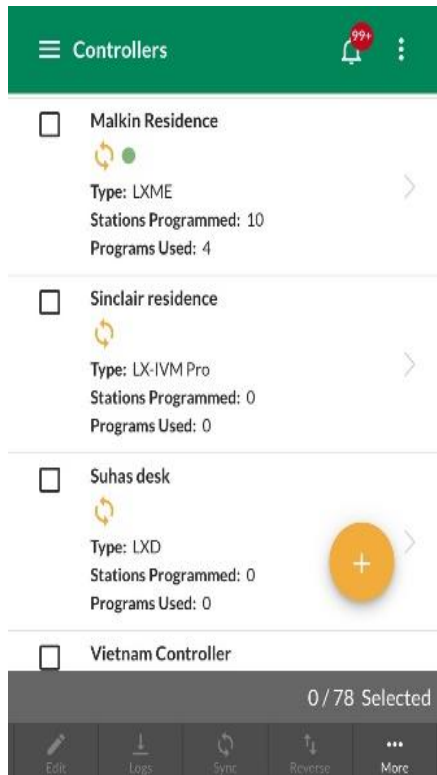

- You should see the following (flow and run/soak times)

- To advance to the next station, select the running station and the Advance button

- To stop irrigation, select the **Stop All** button

- **Manually operating programs and stations from a mobile device is identical to operating from IQ4 on a desktop computer**
