

Welcome to the Family

"Switching to the Rain Bird IC System™ and CirrusPRO™ Software has been a complete game changer for us. The ability to make adjustments in the field has allowed us to maximize our water usage and minimize hot areas. Rain Bird goes far above the rest to improve their products and more importantly their relationships.

We here at The Covey wouldn't want it any other way. "

Ben Lauber, Director of Agronomy, The Covey, Big Easy Ranch, TX
