

## Product Technical Bulletin

EFB-CP Valve – New G5 Solenoid Preinstalled (Replaces G4 Solenoid)

May 1, 2025

***G4 Solenoid***

***G5 Solenoid***

**MODELS AFFECTED:**

<b>SKU</b>	<b>Model</b>	<b>Description</b>
100EFBCP	B32553	100EFB-CP, NPT
150EFBCP	B32853	150EFB-CP, NPT
200EFBCP	B32953	200EFB-CP, NPT
I200EFBCP	B33913	200EFB-CP, BSP

**IMPLEMENTATION DATE: Early May 2025****Introduction:**

Rain Bird® EFB-CP Series Valves will now feature the G5 solenoid.

**G5 Solenoid benefits:**

- Eliminates the solenoid adapter between the valve bonnet and the solenoid. This eliminates a potential leak path if the sealing o-ring is damaged.
- Can be used on all Rain Bird valves, reducing the number of solenoids SKUs to stock.
- Designed for easier maintenance as the plunger spring is captive and the plunger retainer is easier to remove.
- Electrical characteristics were designed to run at lower voltage which allows the solenoid to run cooler and over longer wire runs.

**Interchangeability:**

The new G5 solenoid is interchangeable with the COM G4 solenoid (236239).
